

## Assembly Program: Traditional Homes of the Eastern Hemisphere

3rd - 5th grade (40 minutes)

A cultural exploration assembly for grades 3-5, where students will learn through art, physical and digital artifacts, and more!

## What do educators say about our programs?

Valerie H.

The education my students (and their parents) got was exceptional. My kids learned a little Portuguese, they made Carnival masks, they played with artifacts, and they got to move animals into a rainforest. The stations were wonderful. The students were engaged the entire time.

Kristin R.

Hands down, this was the best traveling museum experience that was had for both the staff and students! The children all went home and spoke very highly about it, and I have received parent feedback stating how happy they were as well for their children to have been immersed in such a wonderful program. It was actively engaging, the presenter knew her material, and offered the knowledge and expertise of the students as well.
